

## Paper Roll Fish

**Supplies:** Paper roll, googly eyes, q-tip, glue, paints, paint brush, glitter shaker, black marker.

### Steps:

1. Flatten your cardboard tube.
2. Cut a rounded end for the fish's head and two slits for the tail.
3. Fold the angled cut (which was created after making the slit) backwards and forwards to make it easier to bend, and then tuck it inside the fish to create the tail.
4. Paint your fish one colour, and then decorate it by dipping a q-tip into different coloured paints. Add the glitter while it is wet.
5. Glue the googly eye onto the coloured side and draw on the mouth with the marker.
